

Corrugated PVC Panels can be used as ceiling and wall liners in new construction and for up grading in older buildings. Corrugated PVC Panels are a cost effective alternative to the traditional painted plywood and FRP panels. These panels are non-flammable and corrosion resistant. They provide a high impact strength and are easy to cut and install. Corrugated PVC Panels will never rust, rot, chip or peel. The smooth facade is easy to clean and provides a hygienic and virtually maintenance free interior surface.

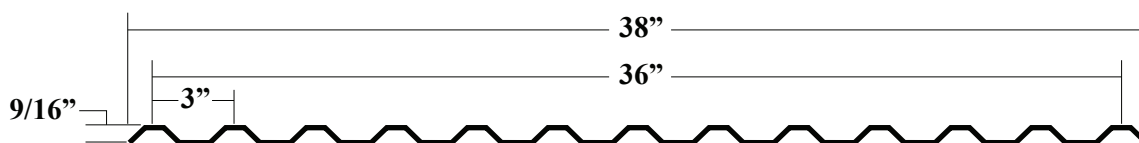

## USES AND APPLICATIONS

- Bakeries
- Car Washes
- Cold Storage
- Commercial Buildings
- Confinement Buildings
- Farm Buildings
- Food Processing Plants
- Freezer Rooms
- Kennels
- Kitchens
- Labs
- Meat Packaging Plants
- Milking Parlors
- Poultry Processing Areas

**#10 x 1" Master Gripper  
Bright White Fastener.**  
Also available in Stainless Steel

## RIBCORE

Profiles available in 12'2", 16'4" and 20'4" lengths

## PVC TRIM

<p><b>RC-B-10</b></p> <p><b>RibCore Base Trim (10')</b></p>	<p><b>RC-J-10</b></p> <p><b>RibCore J-Trim (10')</b></p>	<p><b>RC-IC-10</b></p> <p><b>RibCore Inside Corner (10')</b></p>	<p><b>RC-H-10</b></p> <p><b>RibCore H-Divider (10')</b></p>
